Do not combine multiple images into one image.**No collages.No borders.No before and after.No text on images. Please do not move the Title layer and simply use the Text tool to change the text. Remember all lowercase letters in 46px and numbers 40px. You will need a [ITC Blair Font](#) tray. The only accepted file format is .png or .jpeg. File names should not include spaces and use _ instead.**

Video

Mobile: 1080 x 1920px + cover.

Minimum: 1920 x 1080px + thumbnail.

Maximum: 4K + thumbnail

Anyone using a non-public version may not release a public video or screenshot that uses it until at least 6 hours after the version is made public. He must also not use official billboards. [Template for high resolution thumbnail can be found here.](#)

All renders must be provided to host the product's trailer on the website and in English for Youtube, in Chinese for Billbilli and in Vertical for English on TikTok Vertical Chinese for WeChat.

2. Render multiple formats for the video player on the website:

1440p (2k): 2560x1440

1080p (HD): 1920x1080

720p (HD): 1280x720

480p (SD): 854x480

3. Use the following naming convention:

Naming: dcs_name_of_the_video(resolutionp)

Example dcs_your_video_name(1440p).mp4
