

DCS Spitfire Mk IX VoiceAttack by Bailey v1.0

Intro

Hello and welcome to Bailey's VoiceAttack Profile for the DCS Spitfire Mk IX! This is the READMEE. Thank you for taking a look-see. Please make sure to configure your key binds to what I have provided in the download files (Keyboard_Spitfire_BaileyvX.diff.lua and Keyboard_Spitfire_vX.html). It is up to you to make sure you have the most amount of fun with this profile. Bind/Import those keys!

How to Install

1. Extract the file you downloaded with your personal flavor of zip software (winzip, winrar, etc.).
2. Open Voice Attack and Import the file called 'Bailey Spitfire Mk IX vX.vap'. The 'X' denotes the version numbers. The higher the number, the more recent the version.
3. Open DCS and go to the Control menu.
4. Ensure that you are in the "Spitfire LF Mk IX Sim" bindings (check the top left dropdown menu).
5. Click any box in the Keyboard column.
6. Click "Load Profile" in the upper right of the menu.
7. Navigate to and select the file called 'Keyboard_Spitfire_BaileyvX.diff.lua' that was in the download, then press OK.
8. Yay! You did it!

Crew Chief Commands

These commands can be used on the ground while at a friendly airport.

"Crew chief"

"Chief rearm and refuel"

"Chief request repair"

"Chief turn on/off the ground power"

Radio Commands

These radio commands will change your radios.

"Channel A/B/C/D"

"Radio A/B/C/D"

"Channel able/baker/charlie/dog"

Startup Commands

These radio commands will help you start up the aircraft, if you chose to do so.

"Autostart"

"booster cover close/open"

"magneto one off/on"

"magneto two off/on"

"idle cut off off"

"magnetos on/off"

"prime [1..15] times"

"primer lock/unlock"

"R P M max"

"starter cover close/open"

"wobble [1..20] times"

Kneeboard Commands

Use these commands to, well, command the kneeboard.

“Show/hide kneeboard”

“kneeboard toggle”

“kneeboard next/previous”

“next/previous page”

“kneeboard mark”

“kneeboard where are we”

Cockpit Macros

For your ease of use, I have made some Cockpit commands. Look into the VA profile to see more and feel free to add more of your own!

toggle aircraft labels	toggle all labels	bombs away
toggle briefing	carburetor Filter off/on	clickable cockpit mode toggle
toggle missile labels	deicing on/off	drop tank fuel cock on/off
escape; press escape	flaps up/down	fuel cock on/off
gear down/up	gear emergency release	gun max/min range
gun tint down/up	gun on/off	gun base max/min
min wingspan/base	canopy open/close	night vision goggles toggle
NVG gain down/up	parking brake release/set	pitot heat off/on
radio lights bright	radio lights dim	show fuel
toggle pilot body	show score	supercharger auto/ m s
toggle vehicle and ship labels		

Other Commands

This Profile contains every single DCS Spitfire Mk IX action Belsimtek has to offer as a Voice Attack Command. This gives you the ability to make commands and macros of your own. The possibilities are nearly limitless. Make sure to read the Voice Attack Readme so that you can use your time wisely and get ahead of the curve. Use your imagination! Here are some that I made up. You can do it too!

“cannon [1..20] second burst”

“gun [1..20] second burst”

“machine gun [1..20] second burst”

“prepare for landing”

Outro

That’s about it for now. For those savvy Voice Attackers there may be some treats for you in the .vap. For those who aren’t as savvy, there is something you can look forward to! Thank you all for downloading my VoiceAttack profile and I am sure we all look forward to what the DCS Spitfire Mk IX will have in store for all of us! Feel free to contact me on the ED forums (Bailey) or better yet on Discord (Bailey#6230). Remember that comments, questions, critiques, and requests are always welcome!

~Bailey
