

Day 1 - NTTR Familiarization and daylight Formation Flying

BACKGROUND

The first day in NTTR usually consist in become familiar with the used navigation points and corridors for Blue and Red forces in Red Flag Exercises.

Some of the airspaces are forbidden like the Groom Lake AFB area (called "Container") and some corridors are strictly used by Red or Blue forces only.

FEBA (Forward Edge Battle Area) is the space (both air and ground) used to simulate conflicts.

Springfield 1 will take the lead of your flight to let you see all this places and give you some advices on them.

BRIEFING

Springfield 1 will takeoff at 16:35(ZULU time) , make sure to start-up and taxi just after them.

Once saddled with Springfield 1-1 after WP1 practice formation flying until reaching the Creech AFB airspace near WP5 (LANDING IP).

Once over WP5 you have to grab ATIS (CH2 COMM 2) and select the right information (Alpha , Bravo , Charlie , etc) provided by it in the F10 comm menu.

Just after that switch to CH6 COMM 2 and contact Nellis Approach by pressing "SPACEBAR".

Make sure to read the Custom ATC documentation provided with the missions.
