

Day 3 - Air-Ground Range Training

BACKGROUND

NTTR is full of ranges where you can practice air-ground tactics against faked armor, air defence, static and moving targets.

All targets are very similar to the ones you will find in a real battlefield, they are designed and self constructed to give the best training experience ever.

Today you will practice in Range 62 just South-East of Groom Lake AFB, Forward Air Controller (FAC) Bravo is around assigned targets ready to call your hits.

BRIEFING

Takeoff at 17:35 (ZULU time), move to WP2 (IP) and contact FAC Bravo at CH9 COMM2.

Targets are fake BRDM at WP3, FAC Bravo will call hits for you.

Once done contact Bravo to Fence out via F10 menu.
