

## Mission 5, From all sides

55mn

26th of November 1987

Your rating increased again with your third kill and ... your colleague is one step away from a nervous breakdown. He feels guilty for not detecting this F-4 and leaving you alone. But there could be many other opportunities in the coming days ...

The MiG-21 squadron was recalled for other emergencies on the northern front. Some additional Mirages 2000 should come from France soon. But today, there is only your two aircrafts. And unfortunately Iraqi intelligence service suspects an imminent air strike on Shiraz Air Base.

### Briefing

IQAF surmised two possible axes of attack. One from South-South-West with IRIAF aircrafts coming from Lar Air Base and skirting the southern part of the Zagros mountains. Second from the East with IRIAF aircrafts coming from Jiroft Air Base.

You are both in Quick Reaction Alert.
