

A-10A JAWS 75-262

This represents (as close as possible given various sources) the JAWS (Joint Attack Weapons System) A-10A Warthog from the 57th Wing, Nellis Air Force Base, Nevada.

Installation: Simply unzip the folder and extract the file into your Bazar\Liveries\A-10A (or optionally the C, though the only oddity noticed is the antenna behind the cockpit, otherwise it's identical mapping) directory and go into the simulation go to the Payload section and for the Liveries drop down menu select "JAWS Skin No.1" and go fly.
