Requirements:

F/A-18C

Super Carrier

Persian Gulf Map

Situation:

The Strait of Hormuz is one of the world's busiest shipping routes transporting oil through a narrow strip of water.

Situation:

The Strait of Hormuz is one of the world's busiest shipping routes transporting oil through a narrow strip of water.

In a political war between Iran and the West, they have begun hijacking vessels in international waters accusing them of violating their own waters. CVN-73 George Washington has been tasked located in the Gulf of Oman to act as a deterrent to this aggressive behaviour. Your F18 Squadron is currently on high alert awaiting missions to act to prevent this in escalating into a wider conflict. Iranian Republican Guard and Special Forces have been more increasingly active in the area.

Situation Opposing Forces:

There has recently been a lot of navel activity around the Southern coast of Iran and we remain vigilant. A UK flag vessel approaching the Strait of Hormoz when one of our MQ-9 drones has spotted five Iranian Republican Guard boats stationary in its path. We have notified the UK forces, but it has been determined that we are in a better position to support at this time. The Iranian boats are pre-loaded for you at vicinity of WP3.

MISSION:

Show of Force. Display a show of force over the Iranian Republican Guard gun boats. Deter them from intercepting and capturing tankers.

Fly past the Republican Guard boats at high speed and low altitude.

You are authorised to pass:

Lower than 300ft

Faster than 400kts

Do not enter Iranian Air Space.

ROE:

You are not to fire upon the boats unless they pose an immediate threat.

Darkstar is on standby to support you.

Standby for other taskings.

Notes:

Don't forget to set low altitude warning.

Combat & Signal

CVN-73 George Washington - 73X - ICLS 11 - 127.5AM
