

INTEL BRIEF

- At 1500L ISR footage shows an unsuccessful attack on OIBV airfield by a B-2 Spirit.
- A TU-95 aircraft has arrived on the island with a PLA site survey team.
- It is believed the survey team is siting Chinese Silkworm missiles for the Iranian Navy.
- A SEAL team has been sent in to destroy the TU-95 and conduct SSE on the survey team.
- Local sources indicate the site survey team is driving a blue vehicle of unknown type
- You are tasked with 4 priority targets to destroy with a high altitude JDAM attack
- Your aircraft electronic kneeboard has all of the necessary targeting data for the mission
- Code word name for this mission is Operation Desert Shoals.
- Fly your pre-planned route of flight which simulates local air carrier service in the Gulf.
- Good luck and good hunting! Attached is satellite imagery for last known target positions.

01/1445L OIBV RQ-4 Overhead
