ADDITIONAL INTELLIGENCE – TERRORIST ATTACK ALERT

CONFIRMED INTELLIGENCE

On Christmas Day, 25 December 2015, Al-Doran and Special Purpose Islamic Army forces conducted a coordinated string of terrorist attacks across Georgia and Russia. There were five suicide bombings and attacks in Moscow, with approximately 521 casualties; the death toll is still rising at the time of this report. At the time of the Moscow terrorist attacks, enemy forces attacked Beslan Airbase and an army depot in Russia. In Georgia, Tbilisi-Lochini Airport was attacked and there are approximately 260 hostages. Vaziani Air Force Base was also attacked and is occupied by terrorist forces at the time of this report.

The current situation at Tbilisi Airport has become deadly, intel estimates 75-100 Al-Doran extremists are present at the airport. The terrorists have encircled the interior perimeter of the airport with armored vehicles, planted explosives throughout the terminal buildings, and have approximately 260 hostages. The terrorists are demanding the US release all prisoners from the TIF at FOB Suse or they will kill one hostage an hour. At the time of this report, 3 hours have passed since the demand, and 3 hostages have been killed. Coalition forces are at a severe disadvantage for this mission, and have limited resources in Eastern Georgia. The enemy has armor, explosives, line of sight in all directions, and known to detonate suicide vests and explosives for their cause. Georgian government officials have authorized Russian Spetsnaz to participate in the rescue operation.
